Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-21 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by EP 0353025.

EP 0353025 teaches an apparatus with multiple wells(52) that have been read on the claimed chambers(12-14). Filter(58) has been read on the claimed filter(18). There is relative movement between the filter and the wells that facilitates sample transfer.
